Let's shape the future of connected logistics!

Join our Innovation Hub in Berlin as

Visual UI Designer (m/f)

Our Berlin Innovation Hub is a space for invention and creation: we push the boundaries of connected logistics systems enabled by Internet-of-Things, artificial intelligence and big data science. We are creators and developers, designers and creatives, techies and data scientists. Our way of working is collaborative: rapid prototyping for validated learning and creating MVPs is second nature for you.
We are working on delivering unique digital products, services and new data-driven business models that bring value to the global logistics ecosystem.

Role
As a Visual UI Designer and part of a agile, rotating design team you will be able to work on futuristic digital products in the transportation and logistics sector.
This position requires strong visualisation skills and the ability to transform complex topics, data and structures into meaningful and outstanding visual UI designs and data visualisations. With your design expertise and together with an enthusiastic team of developers, user experience designers and business designers you will shape digital products such as mobile apps, web or desktop applications from ideation till final implemenation. You will support the design process with sketches, design explorations, rapid prototypes, digital assets such as icons and leading edge visual UI designs. Candidates should also demonstrate the ability to work across mediums, from digital to print. Previous experiences in designing for mobile devices is mandatory and coding and animation skills a plus.

Tasks
- Revealing strong visual UI design concepts as well as smart interactive features from ideation till pixel-perfect implementation
- Communicating ideas quickly and effectively in multiple ways using paper prototypes, Adobe CS or Sketch, quick videos or interactive prototypes and high fidelity mock-ups
- Developing consitent design languages and ensuring consitency across various platforms
- Having a great eye for details and with a mind for systems-thinking
- Understanding user needs and business requirements and being able to turn them into appealing design solutions
- Ability to create and hold clear presentations explaining your design decisions

Relevant experiences

We'd love to hear from candidates who have a background in Interface Design, Communication Design, Interaction Design or equivalent and a minimum of 2 years of working experience.
Visual UI design candidates should be well-versed in one or more of the following:

- User Interface Design
- Visual Design
- Designing visual languages
- User Centered Design
- User Experience Design
- Data Visualisation
- Design Thinking

What we offer you

- Innovative environment working for the B2B pioneer in automotive connectivity solutions
- Thrilling projects in international interdisciplinary teams with global market impact
- Attractive compensation package
- Creative atmosphere in co-working space Ahoy! Berlin
- Flat hierarchy, open collaborative culture, with English as primary language (German beneficial)
- Plenty of room for your own ideas and self-organised work to see your ideas come to life and scale globally
- Liaison with the Daimler group with the flexibility of a digital innovation lab

The job is full-time and limited to a term of two (2) years with the option of a permanent employment contract.

Location: Berlin
