

Let's shape the future of connected logistics!

Join our Innovation Hub in Berlin as

Senior Venture Developer (m/f)

Our Berlin Innovation Hub is a space for invention and creation: we push the boundaries of connected logistics systems enabled by Internet-of-Things, artificial intelligence and big data science. We are creators and developers, designers and creatives, techies and data scientists. Our way of working is collaborative: rapid prototyping for validated learning and creating MVPs is second nature for you.

We are working on delivering unique digital products, services and new data-driven business models that bring value to the global logistics ecosystem.

The role

The Senior Venture Developer will holistically lead the development of internal (and potentially external) ventures. This includes the definition of the MVP's KPIs and milestones, coordination of the product development as well as the business development with internal and external stakeholders. Depending on the project the Senior Venture Developer will lead agile interdisciplinary teams of 3-6 members.

Due to the high flexibility regarding methodologies, team setup, technologies and budget, we understand the role of the Senior Venture Developer as an entrepreneur acting on behalf of the Fleetboard Innovation Hub.

Your profile

- Degree in Business; Entrepreneurship, Strategic Design (or equivalent), MBA is a bonus
- Minimum of 5 years work experience
- Proven leadership track record in a tech startup or company building context
- Deep understanding of major business models in the digital B2B business and the respective growth drivers
- Strong project management skills
- Very high cross functional communication skills
- Experience with business model prototyping tools, business cases, roll-out plans
- Analytical skills with ability to compile and analyze performance data
- Fluent in English (German is as a plus)

Valuable additions

- Experience as startup founder
- Working experience in the corporate context

- Professional touch points with Logistics
- Experience as Product Owner

Your responsibilities

- Steer venture projects in the Logistics industry
- Define, together with the product team, a compelling value proposition and test the hypothesis through MVPs
- Assess internal capabilities and capacities to develop a sourcing strategy
- Build a solid business case and contribute to the business plan
- Define and monitor KPIs and milestones
- Steer the ongoing product development, implementation and iterative improvement
- Develop the business towards internal and external stakeholders
- Provide systematic knowledge-transfer both into Fleetboard Innovation Hub as well as Fleetboard GmbH

What we offer you

- Be an essential member of a smart and hard-working team of business leaders, designers, engineers, product specialists and technology experts
- Work in an entrepreneurial unit with a high degree of creative freedom and execution flexibility
- Gain exceptional perspective and learn about one of the hottest industries in tech
- Receive competitive compensation

The job is full-time and limited to a term of two (2) years with the option of a permanent employment contract.

Location: Berlin
