Let's shape the future of connected logistics!

Join our Innovation Hub in Berlin as

Internship - Frontend / Web Developer (m/f)

Our Berlin Innovation Hub is a space for invention and creation: we push the boundaries of connected logistics systems enabled by Internet-of-Things, artificial intelligence and big data science. We are creators and developers, designers and creatives, techies and data scientists. Our way of working is collaborative: rapid prototyping for validated learning and creating MVPs is second nature for you.
We are working on delivering unique digital products, services and new data-driven business models that bring value to the global logistics ecosystem.

What your tasks will be
  • Support in development of ideas and translate design and user requirements into a web experience that is a web testbed or MVP
  • Ensure the technical feasibility of UI/UX designs
  • Collaborate with designers frontend and backend developers
  • Support on building and driving development of web applications with user-facing features
  • Build reusable code and libraries for future use
  • Optimize application for maximum speed and scalability
  • You have an aptitude for rapidly learning new concepts and technologies and applying them in an agile manner
  • You have up-to-date and comprehensive knowledge of current technology trends

What we expect from you
 We'd love to hear from students with at first experience in frontend development. Front-end Web Developers candidates ideally have a background in informatics, computer science, engineering or comparable studies, and should be well-versed in one or more of the following technologies, tools, methodologies and experiences:
  • experience in HTML5 and CSS3
  • good visual thinking and an eye for the smallest detail
  • knowledge about how to use GIT
  • basic experience in JavaScript
  • be familiar with BEM methodology
  • preivous contact with Angular and/or React
  • basic command line skills

Daimler Fleetboard
Innovation Hub

Location Wattstraße 11
13355 Berlin
Germany

Mail jobs@fleetboard.com
www innovationhub.fleetboard.com

- familiar with agile project management
- Understanding of UX and UI design principles

What we offer you
- Innovative environment working for the B2B pioneer in automotive connectivity solutions
- Thrilling projects in international interdisciplinary teams with global market impact
- Creative atmosphere in co-working space Ahoy! Berlin
- Flat hierarchy, open collaborative culture, with English as primary language (German beneficial)
- Plenty of room for your own ideas and self-organized work to see your ideas come to life and scale globally
- Liaison with the Daimler group with the flexibility of a digital innovation lab

The job is full-time and limited to for a duration of 3-6 months.

Location: Berlin

How to apply
Send us an email to jobs@fleetboard.com, with your earliest availability, preferred duration and with your CV and your certificate of enrolment at a university (it's a pre-requisite for an internship with us).
In your email application, please explain one of your major coding challenges in the past: What was it about, how did you approach and solve it, what have you learned. If you have any code to share that would be a plus, but it's not required. One page will be sufficient.
