

Let's shape the future of connected logistics!

Join our Innovation Hub in Berlin as

Senior Backend Developer (m/f)

Our Berlin Innovation Hub is a space for invention and creation: we push the boundaries of connected logistics systems enabled by Internet-of-Things, artificial intelligence and data science. We are creators and developers, designers and creatives, techies and data scientists. Our way of working is collaborative: rapid prototyping for validated learning and creating MVPs is second nature for you.

We are working on delivering unique digital products, services and new data-driven business models that bring value to the global logistics ecosystem.

Tasks

- Development of cloud-based microservice backends in Microsoft Azure
- Working as part of an agile cross-functional development team (designers, developers, data scientists)
- Continuous integration and deployment, DevOps

Relevant experiences

- At least 5 years experience in developing cloud-based solutions
- Experience with Microsoft Azure
- Experience with Kubernetes
- Experience with building CI/CD pipelines in Visual Studio Team Services (VSTS)
- Experience with relational and NoSQL databases
- Ideally experience with Big Data service components such as Data Lake, Data Factory, Databricks
- Strong skills in .NET Core; Python would be a nice-to-have
- Experience with container platforms such as Docker
- Experience in Agile and Scrum

What we offer you

- Innovative environment working for the B2B pioneer in automotive connectivity solutions
- Thrilling projects in international interdisciplinary teams with global market impact
- Attractive compensation package
- Creative atmosphere in co-working space Ahoy! Berlin
- Flat hierarchy, open collaborative culture, with English as primary language (German beneficial)

- Plenty of room for your own ideas and self-organised work to see your ideas come to life and scale globally
- Liaison with the Daimler group with the flexibility of a digital innovation lab

The job is full-time and limited to a term of two (2) years with the option of a permanent employment contract.

Location: Berlin

How to apply for Backend Developer

Send us an email to jobs@fleetboard.com, with desired salary, earliest availability and with your CV.

In your email application, please describe when you successfully learned and used new frameworks. Please keep your answers concise, and limited to 300 words.
